

SOFIHUB travel is a lightweight, easy to use mobile personal alert system and can issue an emergency SOS to multiple people at the touch of a button via SMS.

Equipped with global positioning and mobile network technology, it can instantly pinpoint a person's location and enable immediate voice contact via a built-in speaker phone.

## For Your Security

### One Touch Calling

When help is needed, simply press the SOS button on your SOFIHUB travel to call up to three emergency contacts.

### Instant Location Message

The SOFIHUB travel also sends an automatic text message to your nominated carer/family member with your current GPS location when the SOS button is used.

Features	Benefits
SOS button, one touch call ability	Speedy access to emergency contacts
Speaker phone	Family members / carers can call directly to user
Instant location message	Receive SMS message with current GPS location
Nationwide connectivity	Assurance your call for help will be received where there is mobile coverage
Waterproof (IP67)	Usable for multiple activities
