

SOFIHUB secure is a lightweight, easy to use mobile personal alert system which can issue an emergency SOS to multiple people at the touch of a button via SMS.

Equipped with global positioning and mobile network technology, it can instantly pinpoint a person's location and enable immediate voice contact via a built-in speaker phone.

For Your Security

One Touch Calling

When help is needed, simply press the SOS button on your SOFIHUB secure to call up to **ten** emergency contacts.

Instant Location Message

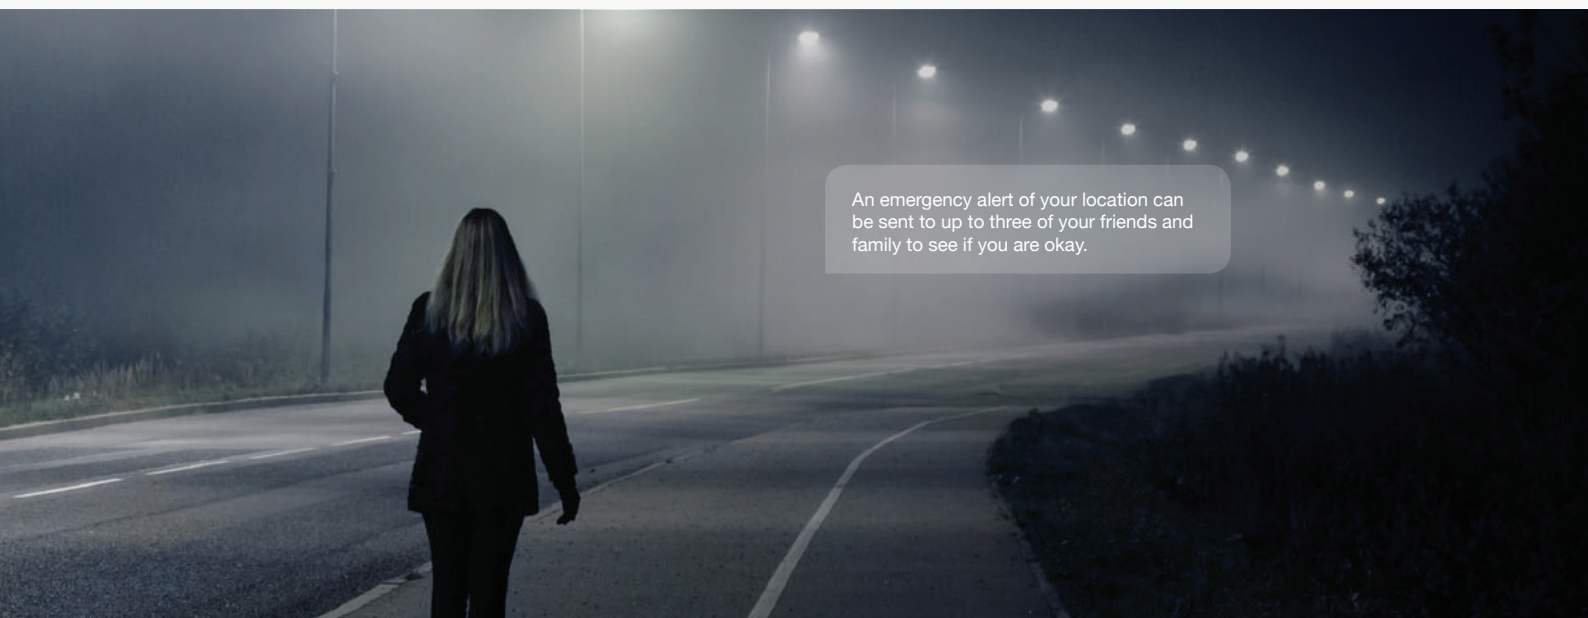

The SOFIHUB secure also sends an automatic text message to your preferred contact with your current GPS location when the SOS button is used.

Emergency Contact

Call User

Family members/carers can directly call the SOFIHUB secure to communicate with the user.

Features	Benefits
SOS button, one touch call ability	Speedy access to emergency contacts
Speaker phone	Family members / carers can call directly to user
Instant location message	Receive SMS message with current GPS location
Nationwide connectivity	Assurance your call for help will be received where there is mobile coverage
